Kansas Congressman Says That For Twenty-five Years He Has Stood Against Progress.

TERMS HIM A STAND-STILLER

Charges Him With Being Bulwark of Every Plot of Aristocracy to Swindle and Cheat the People.

Emporia, Kan., July 19 .- Congressman Victor Suctook, Kansas insurgent in the hose of representatives, following the wake of Cannon, today defended the insurgent cause in his first political speech of the campaign here, and replied to the speaker's charges made here yesterday. He declared that Mr. Cannon "for 30 years has been opposed to locommotion in any direction," charged him with af-nilation with Tammany hall and declared the greatest thing the insurgents accomplished in the last session of Coppess was to put the speaker off the committee on rules. "I did not lutend to get into this campaign," he said. "I have no ofposition in my own district and I thought I would keep out of the contest, but when Joseph G. Cannon came into the state to speak, I could not conscientiously keep out of the fight. first political speech of the campaign

A STAND-STILLER.

A STAND-STILLER.

"Speaker Cannon for 30 years has been opposed to locomotion in any direction. For over a quarter of a century he stood against progress. He is not only a stand-patter, but a stand-stiller. During his political life he has opposed about all the progressive legislation that has ever been offered, and the wonder is that so much of it has managed to creep into the statute books.

"He opposed the federal inspection of meats; he stood opposed to irrigation, to currency reform, to pure food laws and regulations to civil service reform and to practically all legislation since the Civil war.

"Now listen to me. I want to tell you something that Cannon did not mention in his speech yesterday. While posing as a partisan, as an ardent advocate of party fealty, he has played in the dark with Tammany, He did not hesitate to rejoice when his boon companion. Lorimer of Illinois was elected to the United States genate by a coalition with the Democrats and by a deal that was rotten to the core; that has made a stench in the nostrils of the nation.

"Cannon has thoroughly poisoned

made a stench in the nostrils of the nation.

"Cannon has thoroughly poisoned the springs of representative government for 30 years He has helped to block the way to light and freedom. "Speaker Cannon was interested in just two things in the tariff bill—the protection of petroleum and its products, and the tariff on ladies' gloves. When the insurgents offered an amendment reducing the tariff on petroleum. Cannon left his chair and raged over the floor of the house like a wild man. He said the house like a wild man had a won our fight. A big hand came down out of the blue sky and smashed Cannon, the glove schedule, the petroleum schedule and all, and that hand was William H. Taft's.

"The greatest thing the insurgents have done," continued the speaker, "has been to put Cannon off the committee on rules, It is no longer necessary for members of the committee to get down on their marrow bones before the chairman for fear of adverse report to the speaker. The insurgents not only wish to take the power away from Speaker Cannon, but from all future speakers. The bulwark of the speaker's power is his authority to appoint the committees. We want to take that away from him. It will then be impossible for him either to reward or punish members."

reward or punish members."

HIS PRETENSIONS.

Continuing, Mr. Murdok said:
"Pretending to stand before the country as a simple man, favoring low expenditures, he in reality has promoted loot and plunder without stint if it would reward his henchmen or serve a factional end; pretending to a democratic sympathy and making a display of homely language and meanest manner he has been the bulwark of every plot and cabal of the aristocracy to swindle and cheat and oppress the people. people.
"Don't be deceived by that imitation

"Don't be deceived by that imitation of the great commoner. He has been a living, breathing denial of the right of this people to representative government ever since his ascension to power. Look at your speaker, my friends. Stand with me and with your own garing congressmen in line as your speaker comes from his private room. See the stenographers and clerks and minions back out of the room before him. See the crowd, bug-eyed with awe, watch the departure of this man from his privacy. Who has he with him?

him? Look, there goes Joseph C. Sibley, who wrote to Mr. Archibald of the Standard Oil, 'I have a senator who wants a thousand; shall I invest?' He is a boon companion and an intimate of your ruler. Also touching shoulders alth him as he comes out is Billy Lorimer a boon companion of this stanch defender of party regularity.

"Yes; there he goes, and beside him, elbowing with the speaker, is Lucius Lillauer, the greatest manufacturer

of gloves in the United States. The mouth-piece and representative of what? Of Tammany. All night the 14th of March a light burned in Cannon's office. I know, for I was up watching it from a cubby-hole of my own that night, and Lucius Littauer was telephoning. I do not know to whom he was talking.

"But I do know what happened. And I do know that Herbert Parsons, chairman of the county Republican central committee of New York, publicly charged in a statement that a bargain was made with Tammany, with the Democrats of Tammany, for their yotes to save Cannon.

VOTED AS DIRECTED.

VOTED AS DIRECTED.

"The next day came the fight, March 15. The old rules were voted down and suddenly, to the asionishment of the regulars, upon a signal from some one. Cannon recognized Fitzgerald, a Tammany Democrat who made a motion to stop the Tide against Cannon, and I sat where I could hear Dalzell of Pennsylvania turn to the panic-stricken bunch of regulars and say, 'Your vote is aye,' and it was aye.

"There have been corrupt votes in the American Congress; there have been servile votes in the American Congress; but I stand here to tell you never was a more servile and slavish vote cast in your Congress by your representatives than when, under the lash of Dalzell, the slave driver of Pennsylvania, your representatives in Kansas, from all the districts but the Seventh and Eighth, voted under the leadership of that Tammany Democrat to bind that corrupt bargain with Tammany and the New York machine.

When money was placed on the table he blew his whistle, summoning aid, and was immediately assaulted. Meantime other policemen started through a side door of the club room and were met by a horde of Chinese. A general battle ensued. After James M. Cochran, an officer, had been beaten and thrown to the floor, he drew his revolver and shot Wong Dick. Frightened by the shooting, the Chinese quickly surrendered. They were herded into the club rooms and later taken to the police station.

5. A copy of agreement will be published in the journals of the labor organizations and displayed in the labor departments of the stove company. GOMPERS'S COMMENT.

Cincinnati, O., July 19.—Samuel Compers, commenting upon the agree-ment, said tonight that in effect it con-stituted the greatest victory labor has won in the United States in a long

time.

The controversy between the American Federation of Labor and the Buck Stove company began about two years ago, when the late James W. Van Cleave, president of the stove company. cleave, president of the stove company, sought an injunction against Gompers and others restraining them from placing his company on the "unfair" list. Upon an alleged violation of this injunction, jail sentences were pronounced upon Gompers, Morrison and Mitchell

Mitchell.

Mr. Van Cleave died several months ago. His death, it is said, was due to worry over the long fight in the courts. The memorandum accompanying the articles of agreement signed tonight declares the company has recently reorganized with Lee Van Cleave at its head, and those now in charge earnestly desire peace with the labor organizations.

GOOD CROP GROWING WEATHER LAST WEEK

Washington, July 19.—Fairly good crop-growing weather prevailed generally last week, according to the national weekly weather bulletin of the department of agriculture issued to-day. It says of the conditions in the

day. It says of the conditions in the west:

"Summarizing the weather of the week for the several important agricultural districts, it appears that in the great corn and winter wheat growing states warm weather prevailed and conditions were generally favorable in Kansas, Iowa and Nebraska.

"Over the western portions of the great plains the hot and dry weather still further intensified the prevailing drouth and the ranges are very dry. In the districts west of the mountains the weather was favorable for the growing of vegetation where irrigation was practised, but in the dry farming districts and over the ranges the continued hot and dry weather has been very trying, except in portions of Arizona and the adjoining states, where the usual summer rains set in about the 13th and conditions have become more favorable."

We have the following report on an extreme case of Bright's Disease. Patient. Frank H. Chandler Clay, New York. member of Sait Springs Lodge, F. & A. M. No. 320, Syracuse:

The physician was called in in May. 1808. Diagnosed it as Bright's Disease, with albumen 22 per cent. Dropsy soon appeared from head to foot. Case resisted treatment and became alarming. A speckallst and two other physicians called in in consultation. At this point patient was nearly bursting with dropsy. Had to be tapped, four quarts of water being drawn. The situation was complicated with paralyzed condition of the bowels. Stomach would only retain peptonized. MIK. Distressing ursemic headaches and eyesight simpaired. At this point the family called in a fifth physician. He gave no hope. Tests by the College of Medicine. Syracuse, N. Y., showed 50 per cent albumen with casts. At this critical moment the patient's family heard of a friend whose case was pronounced hopeless and had recovered. They investigated and found that the recovery was through Fulton's Renal Compound. Sent for ft and put the patient on it December 25th.

Case stubborn and yielded but slowly. The first favorable sympton noted was that the patient began to sleep normally. The dropsy began to decline and was firstly completely eliminated. Complications subsided with gradual disappearance of albumen and casts. The patient slowly gained 22 lbs. in weight and now reports good health.

This case presented one of the hardest cases of Bright's Disease possible. These daily reports of recoveries should interest every family in which there is Bright's Disease and every physician in the U. S. Nothing but the preludies and mistaken notions of the past can now prevent recovery in a great majority, but it is dangerous to let cases get as serious as the above before putting them on the treatment.

The new emollient treatment is known as Fulton's Renal Compound. It can be had in Salt Lake City from Schramm. Ready at any moment for cooking, baking, ironing. Does not overheat the kitchen.
